WE OFFER THE FOLLOWING TERMS OF SALE

1. All Coins GUARANTEED Genuine - This is a LIFETIME Guarantee!
2. All attributions are guaranteed correct - also LIFETIME Guarantee!
3. The IDENTIFIED POPULATION estimates (RARITY) of varieties change as more pieces of Copper are attributed, and it is IMPOSSIBLE to have an ACCURATE rating! But, we do use the most up-to-date data available - as reflected in "Copper Quotes by Robinson". (CQR)
4. STRICT ANA & EAC guidelines are used in grading, which consist of assigning a grade based on the state of preservation/wear of the piece. We then describe the condition of the coin so that you will have as good an idea as possible of what the coin looks like without actually being able to see it in person. It is our intent that there be NO SURPRISES when you receive the coin. Virtually all old Copper has accumulated some marks in their lifetime since leaving the Die/Mint - It is our intent to describe any such marks of significance. We now introduce a new term - VALUE GRADING!!

   Sharpness Grade is far easier to describe in consistent terms, and where there may be circulation defects such as porosity, gouges, rim dinges/nicks/bruises, corrosion and other such detractions, arriving at a NET GRADE is certainly subjective at best. The grade that we have assigned on the first line describing each coin is intended to represent this NET GRADE/VALUE GRADE.

   If the Second Line does NOT start with a Sharpness grade, then it is our opinion that the NET GRADE of the coin is the SAME AS the SHARPNESS GRADE of the coin, and that there are NO SIGNIFICANT defects worth mentioning. Perhaps NOT PERFECTION, but whatever marks or other elements that may be present, do not deduct from the over-all appearance/grade of the coin, and are mentioned for accuracy.
5. A Full 30 DAY return privilege is allowed for any or no reason. Our business is based upon attracting repeat customers, and it does none of us any good for you to keep a coin with which you are not completely satisfied. The 30 day period is an approval period, and we welcome any of our customers to show their purchases from us to any other EXPERIENCED EAC member for another opinion. Sales are final after the 30 day period, but we will certainly consider extensions in this time limit upon any reasonable request.
6. All coins are guaranteed to meet ANACS certification for grading! Any coin graded lower by ANACS can be returned within 120 days for immediate refund of the full purchase price plus all ANACS certification service fees.
7. All orders are sent postpaid.
8. Approval service is available to established clients with 7 day terms.

We are always interested in buying Early Copper & Type Coins! If you have coins to sell, we would be happy to have you contact us. We are willing to PAY STRONG PRICES for NICE coins. We will also accept coins on a consignment basis at a reasonable commission. Please feel free to contact either of us with ANY questions that you may have.

Adapted from Forty Years of a Hunter by Meschach Browning; circa 1839

Having sold all my property to Dr Brooke and failing to get one dollar in money from him he offered me a lot of ground containing fifty acres, which originally was granted to a soldier of the Revolution, but had been sold for the taxes, amounting to two dollars and a few cents. He charged me an additional thirty dollars for it which I agreed to give, and prepared to move into a little settlement in order that I might be able to procure a horse to bring my bread home as I could get none nearer than ten miles.

That fall of 1804 after the last hunt at Bear Creek Glades I won a shooting contest having put three balls centered in the target such that the three could be covered by a mans hand. This was the first of many such contests I was to win. The prize was a brilliant new cent of the year about to pass. It was the first piece of hard currency I had possessed in more than two years and I kept it as a sign of better times to come though the present circumstances hardly offered cause for optimism. In a word I had a wife and four children, a lot entirely in timber, and having neither horse, cow, sheep,

nor hog, I was obliged to maintain my family as best I could. In February I went to work on my lot cutting timber with which to build a house; and as I had either to walk five miles to my home, or stay from home, and leave Mary and the children by themselves, she proposed that I should try to procure a small house in the neighborhood, and thus save myself many a long walk. I went into the settlement, procured a small house ten feet by twelve in size and soon moved Mary and our four children into it; after which I went to grubbing, in order to get some corn planted.

The time for sugar making having arrived and every family preparing to make their own sugar, Mary asked me if I could not get her a camp and let her make some sugar also. I inquired where I could find a small lot of trees for Marys use, when I was told that about a mile off there were eighty or a hundred trees which number was sufficient for our purpose. I stopped grubbing and set about opening a sugar camp for Mary to work at; while I tilled the ground and endeavored to raise enough grain to supply us with bread.

As soon as the weather became warm enough, I tapped the trees, and Mary carried the sap to the fire. When she could not boil it during the day, I would help her to boil it at night. She would attend to the kettles one half the night and I the other. When day light appeared, I would go to my grubbing again. Whenever the sap did not run well, she would help me to pick brush and burn it;and so we worked on till we get out of meal, which could only be procured at the mill, distant ten miles. Mary spoke to a friend to take care of her children while she went there in my place, and let me work at my clearing. Off she started for the mill; and as the day was very warm and the horse heavily loaded, she pitied him, and walked more than half the way. When she reached the mill, being exceedingly warm, she pulled of her shoes and stockings and, wading into the cold water, she washed her hands, face, and feet; but she remained so long in the water, that when she got home she could scarcely walk.

This occured the last of May, and she continued to grow worse and worse, till I was compelled to send for Dr. Brooke. He pronounced it to be a paralytic stroke and gave medicine for it but without effect. Finally the little crease on her face below the nose was turned to the corner of her mouth,and her face gradually sunken such that her beauty was destroyed; but that was a small loss compared with her health which I had always prized so highly. Now I was obliged to continue my work by myself, beside taking care of my wife and children.

Mary still grew worse and the Doctor decided that hers was a desperate case, which all my hope from me; but I kept on working at my house till the last of October. One day, when I was busily employed at the inside of my house, up came my old friend Col Lynn. After a hearty shake of the hand he said: " How is your wife Browning?"

I could hardly answer him for my feelings were worked up to the highest pitch: but knowing his disposition, I summoned up all my fortitude, and told him all, without shedding a tear, and that Dr Brooke said she must die.

"Oh!" said he, " Brooke never was a skillful man, and I should not depend on his judgement. But," added he, " I am going to Frederick, where Dr Thomas lives who can cure her if she is to be cured"

"But," said I, "Colonel I have nothing in the world to pay, and such property I have is now pledged to Dr Brooke" Then I remembered the Cent that I had won some months back. This I went back inside to fetch and brought out to Colonel Lynn still wrapped in the paper in which I kept it for good luck, though such it certainly had not brought me. I related the story of how I came into its posession, presenting the meagre coin to Colonel Lynn, though well knowing it would not go far towards paying for the services of an accomplished physician.

" Never mind that," said he " I have money and will gladly make up the balance."

Gratitude for such kindness left me speechless for a moment; but at length I told him to bring the medicine and that if I ever got money, that should be the first debt I should pay. He asked for a description of her case, and as soon as he had written it down, he galloped off like the wind.

I still continued to work at my house and before the Colonel returned I had Mary and my children in a good cabin. About the time the Colonel said he would return, he came to see me again and seemed really rejoiced to find Mary still living, exclaiming as he entered, " I thank God to see you still with your family." Colonel Lynn explained to me that upon presenting the Cent to Dr Thomas along with the story of my marksmanship and relating to him the circumstances of my situation the good Doctor refused further payment and immediately set about filling a prescription for my wife's recovery. Having said this the Colonel opened the stock of medicines, which comprised fifty two pills and blister plasters enough to keep up a continual running,till she got relief. We commenced with the pills and plasters, together with cold bathing, rubbing her well with a coarse towel as directed; and she began to mend, her face gradually assuming it's natural appearance. On Christmas day I rose early, made a fire and attended to other things I had to do. When I came in, I found Mary was up dressing herself.

"Well, Meshach," she said, " I feel as well as I ever did in my life"

I looked at her and thought she appeared more beautiful than I had ever seen her appear before.

In about eighteen months she presented me with a second son, whom I called John Lynn, because that good man had been instrumental in saving the life of my beloved Mary. I cannot take leave of this benevolent man without stating that this and other charitable acts of his that came under my notice, aroused feelings of love towards him in my heart that will never be eradicated while I live. Moreover, it proves to me that there are good men to be found in all parties. Colonel Lynn was an old Federalist; and little as I like that old party, I will say that a better heart never beat in any man's breast than throbbed in his. He lived till a squabble arose between the United States and England about our ship Chesapeake, which was seized, and her crew impressed on board English ships-of-war, which were sent out to fight the French. This quarrell terminated in a declaration of war by the United States. My old friend died while the dispute was going on; but in a conversation with him on the subject of the war, he said to me: "Browning do all you can to prevent war; but if it comes do all you can to bring it to an honorable and speedy close; after which continue to advocate your old political priciples." And although I long since ceased to support his political principles, I do know that a better patriot and a truer man to his country never lived.

Years later while attending to some business in Frederick I had the good fortune to run into the son of that good Dr Thomas. The intervening years had brought happiness and prosperity to my household. Over a warm glass of port I related to the young man the story of his father's kindness and generosity. His eyes betrayed a familiarity with the tale and to my surprise he produced from his vest pocket a small covered box from which he removed the Cent of 1804 somewhat mellowed in color but as brilliant as the day I first had it bestowed upon me. Such a small artifact,yet it brought back to me the most tender memories. Sincerely I trust it to bring its present owner the same good fortune and happiness it brought to me; having linked me to two fine men such as Dr Thomas and Colonel Lynn whom I shall forever revere and treasure in friendship.
